Col·lectiu Punt 6 is a cooperative of architects, sociologists and urban planners who work to rethink domestic, community and public spaces that promote social diversity without discriminations.

We work from an intersectional gender perspective through community participation and action and fostering sustainability and the solidarity economy.

Services

*Urban Assessments and Audits from a gender perspective.*

Studies about the situation, the use and the needs of a particular space, a neighborhood or a network of everyday life mobility. Implementation of indicators about urban quality and urban management through participatory processes with the community and the public administration.

Audit on the Urban Quality of Life in neighborhoods of Barcelona and Buenos Aires (2013-2014)
*Urban Safety Audits from a gender perspective*

Integral assessments and analyses of social, physical and functional aspects that condition the perception of safety in the space, through participatory methods that include an intersectional gender perspective (exploratory walks, focus groups, community maps)

Exploratory walks and identification of unsafe spaces with women’s groups (2010). Course on exploratory walks for the City of Barcelona (2013-2014)

*Community Participation*

Participatory workshops and tools to rethink collectively the design, the management and use of spaces (neighborhoods, squares, streets, playgrounds and school walking paths, facilities, etc.), including the diversity of people and experiences

Participatory workshops with women of different towns and cities of Catalonia (2005-2010), Walks in different neighborhoods of Barcelona (2010-2015), Community Map during the participatory process of the Rehabilitation Plan of the Center of Málaga (2015)
Courses and training workshops in urban planning or urban safety from a gender perspective

Courses and workshops that combine theoretical content with practical exercises about the built environment, aimed to exemplify and make visible the importance of the everyday life experiences and a gender perspective in the physical environment.

Course "Rethinking the city from the perspective of people. How to include a gender perspective? School of Architecture of Barcelona, 2016. Training workshops on Urban Planning, Province of Barcelona (2009-2011)

*Assistance and advice for the inclusion of a gender perspective in Municipal Urban Plans

Integral revision of documents, elaboration of recommendations and assistance in the reformulation of plans to incorporate the principle of gender equality and its impact in all the scales of urban planning.

Handbook of Recommendations to implement a gender perspective in the urban project, City of Gavà (2010). Gender Audit of the General Urban Plan of the City of Manacor (2015-2016)
*Development of playgrounds and school walking paths that foster sexism-free education*

Analysis of the use and the coexistence of these spaces, to redesign school playgrounds, and identification and implementation of safe school walking paths, by working with the whole education community.

Mapping and implementation of a school walking path, Margalló School, City of Castelldefels (2014).
Assessment and transformation of the playground, Montserrat School, Sant Salvador de Guardiola (2012-15)

*Research-Studies*

Studies and Action-Research about urban planning (housing, suburbs, safety, urban quality of life, urban indicators, etc.) that link urban theory and practice, and contribute to social transformation.

Research project POSTSUBURBIA. Rehabilitation of low-density, single-use residential neighborhoods (2012).
Study of residential suburbs, County of Garraf and Province of Barcelona (2015-2016)
* Exhibitions-Presentations-Walks*

Materials to disseminate criteria and experiences of urban planning from a gender perspective, and make visible the role of women as city builders.

*Walk from a gender perspective in the neighborhood of Ciutat Vella, Barcelona, FEMART 2010. Exhibition about experiences of urban planning from a gender perspective, School of Architecture of Barcelona 2010*
